

# JATNIEL VELIZ

## SKILLS

- Analytical with strong problem-solving ability
- Pattern recognition, adaptable, organized
- Ability to work independent or with a team

## EXPERIENCE

### Programmer 1 | Yale Printing and Publishing | Oct 2021 – Present

Utilizing the Django framework, I created a server for the BluePrint team. Server can: Gather valuable information via SNMP of any printer on the Yale Network.

Recommend Hostname names for new printer installation. Contains a storefront library of devices to facilitate sales to other departments.

Developed scripts on both Windows and Mac to automate department printer installations on client computers.

Updated over 300 machines to be compliant with Yales security and Next Generation Network standard.

## EDUCATION

### BA Computer Science | 05/18/2021 | SCSU

GPA: 3.8
